**Attention : Jody and Mike**

**RE:**

Dear Amazing Transport

Firstly, my apologies for taking over a month to write this, it are long overdue.  
It's been a task settling into a new building and getting used to our new location in Midrand.

Jody and Mike, thank you for accommodating what I thought was a challenging move on the whole, as you had 3 business units to relocate to different areas for Tenova over the space of a week.

I specifically speak on behalf of my own Business unit, PYROMET who contacted and secured your services 2 months in advance without having comparison quotes. This is not standard practice for us, but as we were impressed with previous experience working with your company during our last move, we wanted that same quick, dedicated and honest service. Through Pyromet's already secured deal with you, you were then brought on board to move the other 2 business units, with the shared service IT Department being a particular dedicated service of its own and had to be delicately accommodated between the general office moves.

As expected, your service was outstanding despite the pressure you were put under from the different departments within all 3 Business units. You handled everything in a calm, friendly, accommodating and professional manner at all times and got all jobs done on time and without incident. You even went the extra mile when extra help was needed the day after the move to help us get settled in our new home as quickly as possible and you did this without any extra costs.

Without a doubt, Amazing Transport is outstanding! Once again, thank you for you continued professional service, you come highly recommended and will remain our preferred service provider should the need arise again.

Best Regards  
Pyromet Management
